A ROUND LOT OF OIL.—The Petroleum Centre Record gives the amount of oil held in tank on the first inst., by J. S. McCreary at 133,772 barrels. The total yield of the McCreary farm from July 16th, 1870, to April 1st, 1871, has been 346,129 barrels, which at the present price of oil would net the owner about fifteen and a half million of dollars.

FAST PLAYING.—A Pleasantville correspondent reports a lively contest between two knights of the one at Phil's Central Billiard Hall, on Friday. The players were L. W. Brown, of this city, and Frank Kline, superintendent of the rooms. The game lasted seven hours, the players making 3,500 points, or an average of 500 points an hour, which we believe is the fastest scoring on record.

FAST DRIVING.—TWO MEN KNOCKED DOWN.—Last Saturday night, without the slightest warning of approach, a grocery wagon was driven rapidly over the corner of Franklin and Spring streets. Two men were instantly knocked down, and one of them, named Charles Daniel, considerably injured. In the midst of the confusion which ensued, the driver was permitted to effect his escape.

THERE is a general feeling of impatience for the commencement of street improvements, and as the work of constructing sewerage must be first performed, there would seem to be no good reason why it should not be undertaken without delay. To wait for the passage of the charter amendments before beginning work would retard operations to some extent. We are sure there is a general wish that the Council commence the work of sewerage without unnecessary delay.

NEW OFFICE OF THE UNION EXPRESS COMPANY.—The elegant new brick building, No. 60 Franklin street, erected by Bryan, Dillingham &amp; Co., is now ready for occupation. The Union Express Company will occupy the lower floor as an office, and they will commence moving to-day. The floor is 70 feet deep, 24 feet long and 14 feet high. The rear part of the upper floor will be used by Bryan, Dillingham &amp; Co., as a pattern store room, and the front will be for offices.

PRESENTATION TO COL. DYANE, FIRE CO. No. 1.—On Saturday night, Col. Dyane, Fire Co. No. 1, was presented with two large and beautiful flags, one of which is silk, and thirty five red shirts, by their play friends, who have for many months been raising subscriptions among themselves for that purpose. Mrs. Reynolds, in a neat and appropriate speech, made the formal presentation on behalf of the ladies, which was responded to by Mr. Demar, secretary of the company, Mr. John Kelly, foreman, and chief engineer Bosch.

RESCUED FROM DROWNING.—About eight o'clock yesterday morning, a little boy five years old, named Geoffrey Rickard, residing with his parents on Mechanic street, accidentally fell over the bridge which crosses the mill race on Washington street. It appears that the child was amusing himself by throwing stones into the race, and overbalanced himself. Upon reaching the water he struggled for several minutes, and sank three times. At this moment a man named Patrick Lehigh, who lives in Race street, near the bridge, sprang into the water, and brought the child out from the bottom, which is about eight feet deep. The little fellow was insensible when brought to shore, but Mr. Lehigh threw him over his shoulder, head down, and squeezed the water out of him, and finally succeeded in restoring animation. The child was running about last night, apparently as well as ever.

ROOF OF BRYAN, DILLINGHAM &amp; CO.'S MACHINERY SHOP ON FIRE.—PHOENIX ACTION OF THE WORKMEN.—About five o'clock on Saturday afternoon, Mr. George W. Deaton observed a flame proceeding from the roof of Bryan, Dillingham &amp; Co.'s machine shop on Franklin street. He immediately gave the alarm at the office. An eighty-foot reel of hose connected with the steam pump, is always kept in readiness on the roof, and fire hose attached to a large tank full of water, enters every department in the interior of the building. It was, therefore, only the work of a moment in bringing two powerful streams of water to bear on the burning roof, almost instantly extinguishing the flame. The origin of the fire is unknown, but is supposed to have been caused by some stray spark from a neighboring chimney. The roof was very dry and inflammable, and in a dangerously fit condition to have caused an extensive conflagration, had the fire not been so opportunely discovered and promptly subdued, or had it been necessary to await the arrival of the fire department, who were not even summoned. Loss, trifling \$30.

## Easter Festival at St. James' Memorial Church.

The Easter Festival of the Chapel and Mission Sunday School of St. James' Memorial Church, was held yesterday afternoon, in the church edifice. The main school comprises fifteen classes and 150 scholars, under the superintendence of Mr. Paul W. Garfield. The Mission school is divided into fourteen classes, containing 130 scholars, under the superintendence of Mr. George F. Chester.

The children with their teachers occupied the greater portion of the building, and the congregation filled up the aisles and the back seats. Two large tables spread with white linen covers stood on either side of the pulpit for the reception of the emblematic Easter offerings. Our space will not permit a description of the interesting services, with the exception of that which relates to the Easter offerings. Mr. Garfield received the offerings and emblems and delivered them formally to the Pastor, Rev. Henry Purdon, who read the motto, with an appropriate verse attached to each. Upon reading this aloud, Mr. Purdon remarked, "and may God bless the donor, and an offering was then presented by the "Cheerful givers' class" as a tribute to the memory of Miss Effie Spaulding, who died during the past year. It consisted of an alabaster cross encircled with flowers.

The church, formed in excellent condition through the position, Mrs. Chapin and Mrs. Watson, Derry &amp; Co., and others, sent in quite a collection of flowers and plants.

Dr. Varian sent in a contribution of \$100, towards the purchase of the new lot. Mr. W. P. Howe, the treasurer of the Mission School, will receive all further donations for this purpose.

## Monthly Petroleum Report.

Production—Development—Number of New Wells Drilling—Number of Petroleum in the Region—Shipments—The Price, Exports, &amp;c., &amp;c.

For the month of oil in the region during the month of March shows an average daily decline for the month of nearly nine hundred barrels, or 18,381 barrels per day against 14,301 in the month preceding, and a total yield for March of 419,468 barrels. With a few exceptions there was a steady decline in the production of nearly every tract in the region, which though not large in any single locality, aggregated the amount mentioned throughout the producing districts. The largest increase for the month occurred in the vicinity of Pithole, and at this point did not exceed seventy barrels per day. In the vicinity of Rousseville several farms show a slight increase, but this was counteracted by the falling off on other tracts, in that vicinity, which was greater in the aggregate than the increase. A large number of farms show no change in the production, while others vary so little as not to require mention.

The following table shows the production for March, 1871.
